

Kid's playground at Camp GANIBAS.

Camp GANIBAS is a campground for different Christian camps, retreats, seminars. Every summer hundreds of kids and families spend time there for retreats, education, discipleship and evangelism. It is already 90% booked for the Summer of 2016.

Our need and a dream is to build a Kids playground.

Specifics:

Size: It needs to be able to accommodate about 25 -30 kids at the same time.

Certificates:

To avoid possible legal complications it needs to be produced by a certified manufacturers and needs to meet all the safety requirements.

Durability:

Heavy use and extreme weather conditions have to be taken into account. Durable plastic, stainless steel and professionally treated wood is needed.

Approximate expense:

A local manufacturer could produce this playground for about \$25 000. This amount will be specified. It would cover legal permits, equipment and appropriate safety surface and fence.

Needed involvement:

Funding of about \$25 000

One week long trip to Latvia to participate in the building and assembling of the playground. Some building and technical skills needed.

Additional expenses:

Airfare from Oklahoma City to Riga and back.

In Latvia expenses:

Up to \$50 per day/ per person. Will cover accommodation, food, travel.

Preferred time period of execution:

April 1 to June 15. After that a very active camping season begins and we would prefer for the camp playground be fully operational by then.

Thank you!
